

Project Demo Planning

Date	15 March 2026
Team ID	SWTID-2026-5339
Project Name	EduGenie – Google Gemini Powered Learning Assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the need for an AI-powered learning assistant, and discuss the problem faced by students in understanding concepts and finding personalized learning resources.	2	Bokkisir Devi Sree
2	Solution Overview	Explain the system architecture, technology stack (FastAPI, Google Gemini API, HTML, CSS, Jinja2), and overall project workflow.	3	Cendra Sravani Chowdary
3	Live Feature Demonstration	Demonstrate Question Answering, Topic Explanation, Text Summarization, Quiz Generation, and Personalized Learning Path Recommendation using the web interface.	6	Bokkisir Devi Sree
4	Backend API Demonstration	Show FastAPI endpoints (/qa, /explain, /quiz, /summarize, /learn/recommendations) and explain how frontend and backend communicate.	3	Cendra Sravani Chowdary
5	Functional Testing & Results	Present successful test cases, generated outputs, and demonstrate that all proposed features work correctly.	2	Bokkisir Devi Sree
6	Conclusion & Future Enhancements	Summarize the project achievements, discuss future improvements such as user authentication, progress tracking, and cloud deployment, followed by audience questions.	2	Cendra Sravani Chowdary

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the motivation for developing EduGenie and the educational challenges it addresses.
2	Solution Overview	Present the project architecture, technologies used, and overall system workflow.
3	Live Feature Demonstration	Demonstrate all AI modules: Question Answering, Explanation, Summarization, Quiz Generation, and Learning Path Recommendation.
4	Q&A Session	Answer questions from the audience, explain implementation details, and discuss future enhancements.

Expected Demo Outcome:

- Successfully demonstrate all AI-powered learning features.
- Show seamless integration between the FastAPI backend and Google Gemini API.
- Display the responsive web interface and real-time AI-generated responses.
- Highlight modular architecture, REST API communication, and successful functional testing.
